

TWENTY NINE DONUMS SEAFRONT RESIDENTIAL LAND

TWENTY NINE DONUMS SEAFRONT RESIDENTIAL LAND

This land is zero to the sea. It is in a 47% zoning area, meaning it is possible to build four floors up and one down. It is beachfront land in the best Famagusta seafont location and easily reachable to the city centre. Any apartments built here will be snapped up by both locals and the many foreign investors and re-locators now searching for high quality beachfront property.

It is a constructors dream location. An opportunity not to be missed.
