

LUXURY VALLEY APT PROJECT

Embracing the blue of the Mediterranean, every shade of green and the finest details of its architecture, it is named after the precious stone "sapphire". With the slogan "Sapphire invites you to your own nature", it has been designed to meet all kinds of needs of those who want to own a house in Kyrenia, one of the unique places where nature and peace meet with the sun and the sea. Located at the foot of the Beğparmak Mountains, Safir Villas, which will bring a new breath to the concept of collective villas in the center of Kyrenia, will take their place in the most beautiful stories of the Mediterranean. Composed of a total of 56 residences, 12 of which are luxury detached villas and 44 of which are semi-detached flats, Safir Villas are located on Turkish title deed land. Safir Villas will be a source of inspiration with their interior designs and modern exterior designs; in short, it is a candidate to be the first on the island with its different villa concept in Kyrenia.
